

Professional Spa Collections

amrit organic is in the for-front developing services and products that meet the needs of growing massage and body therapy, advancing careers and evolve spa trends to further expand wellness and complete the wellness search for a healthy lifestyle for the spa environment, the professional and the client. Every product formulated is designed for wellness therapy with the end result to directly impact beauty, clarity of mind and spirit enlightening.

Wellness Cultural Rituals:

American Therapy Collections:

America's Sea Stone Massage

This treatment is about healing, relaxing and improving muscle movement. It begins with a combination of organic sugar and Americas Collection of organic and wild crafted essential oils, preparing the skin for healing and balancing blood flow. After the aromatic and healing exfoliation, the sea stone therapy and massage is preformed. Results include: accelerated healing, release of emotional repression, and eternal body balancing between structure and physical attributes.

Angelica Swathe

Sea Salts and Organic Sugar mixed with Angelica root and root powder make this a very warming and detoxifying experience that heals and soothes swaddling the mind and spirit into a calming state. Mix with Angelica floral water and apply with a smoothing motion, bundle the body to relax. Finish with a warm cleansing towel and apply gentle Americas Penny Royal essential oil with Organic Extra Virgin Olive Oil for the nutritional finish. Or continue with a relaxation massage with acupressure.

Rich Pine Foot Cleansing

A tradition that many indigenous cultures offer is a welcoming, honoring and cleansing practice. Purifying the feet in a warm bath of the Americas Collection of Fir needle, Tarragon and Penny Royal Organic and Wild Crafted Essential Oils prepares the client for a deeper massage treatment while cleansing and sanitizing the feet for acupressure, marma point, reflexology and foot massage. Also a perfect spa experience while performing a more complete consultation.

Professional Spa Collections

Ayurvedic Therapy Collections

Shirodhara

This marvelous treatment starts with a calming herbal foot soak of amrit organic Refresher Soak and a cup of herbal tea for a calming start. Perform a brisk massage to hands and feet with a custom essential oil mix from our Golden Collection including Organic Patchouli Oil. The treatment is highlighted when warm rejuvenating Shirodhara oil is poured onto the forehead in a continuous stream to melt the stress and tension away. Ends with an Indian scalp, neck and ear massage with our Shiro Oil. The aromatic Shirodhara oil is offered to the guest as a wonderful 'take home' spa gift for bath or body nutrition

Ayurvedic Udwartan Ritual

This ritual begins with our Awaken Herbal foot tea and warm tea for relaxation. Then mix the recommended Dosha herbs and aromatic oils to create the exotic scrub. After use hot towels or shower to remove remaining scrub and follow with the Ayurvedic Abhyanga massage using the prescribed Dosha oil soothing tired and aching muscles.

Dosha Oils include **Vata/Dry**, **Pitta/Combo**, and **Kapha/Congested**

Ayurvedic Facial Massage

The Facial Marma Abhyanga Massage triggers vital energy points that awaken immune responses, by stimulating the lymph system and connective tissue to clarify naturally, using a custom blended amrit organic Wellness blending bar organic center oil with the organic essential oils for the clients condition and skin type. This massage penetrates nutritional and healing properties perfect for all facials creating a custom spa culture technique.

Ayurvedic Abhyanga Massage

This specialized treatment is different from regular massage in several ways. Based upon your body's individual constitution, special oils and herbs are used when applied to the body. These help balance the elements of Vata (air), Pitta (fire), and Kapha (water). Your lymphatic system is stimulated which assists in the flow of nutrients in the body and the removal of toxins from the cells. As with any massage, you may feel less stress, sleep better, experience better immunity, reduce pain, and experience rejuvenation. This massage is conducted with medium pressure with long smooth strokes; perfect for the client who has never experienced massage and the experienced client for an alternative wellness experience.

Professional Spa Collections

Ayurvedic Marma Massage

There are 108 marma points in our bodies, these points are where the vein, artery, tendon, bone and flesh meet. Also it can be where vata, pitta, kapha, sattva rajas and tamas meet. Stimulation of these points can be used to heal the person or to harm... these are the strong energy centers and are somewhat similar to acupuncture. While massaging with specific pressure and awareness, these marma points are pressed. Massaging these marma points helps to remove the energy and toxic blocks from the system. This also improves the function of the internal organs. Marma Abhyanga involves the use of major and minor marma points. At each point pre-dominance of one principle exists. It is at these points where Abhyanga is most effectively used to restructure or rebalance the system to function most healthily. Further, Abhyanga helps develop the body's immune system and longevity of both the body and mind, by ensuring the proper balance and flow of hormones, fluids, immune factors etc.

Indian Head Massage

Shiro Abhyanga also known as Indian Head Massage is a thorough, aromatic massage of the head, neck and shoulders. It balances your central nervous system and promotes mental clarity while deeply conditioning your hair follicles and scalp.

Custom Learning Programs including product knowledge, modality and technique classes are available on location, at regional spa locations and in combination with reward programs.
