

Limited Warranty on Roofing Shingles

Limitations on the transferability of this warranty are set forth herein.

EFFECTIVE DATE: This Limited Warranty is effective for all Owens Corning™ shingles installed on or after 1/24/11.

Introduction

Thank you for your recent purchase of roofing shingles manufactured by Owens Corning Roofing & Asphalt, LLC ("Owens Corning"). We believe we manufacture the highest quality and most attractive shingles available anywhere, and that is why we stand behind them with one of the best warranties in the industry. We have attempted to write this warranty in clear, plain-English terms, including the limitations and restrictions, so you will fully understand the warranty we are making to you. However, the terms contained herein are subject to change without notice. If anything in this warranty is not clear to you, please call us at 1-800-ROOFING or visit our Web site at www.roofing.owenscorning.com.

Who Is Covered

If you live in the United States or Canada and you are the original consumer purchaser, (i.e., the homeowner, not the installer or contractor) or the first transferee from the original consumer purchaser of one of our shingle products listed below, you are entitled to the benefits of this warranty.

Transferability of This Warranty

You can transfer this warranty one time, anytime during the life of the warranty. For this warranty to be transferred, the new homeowner must complete and return the attached Warranty Transfer Card, within sixty (60) days after the date of the real estate transfer to obtain the benefits of this warranty. Proof of purchase of the Owens Corning™ shingles and the installation date must be submitted at the same time. If the transfer takes place within the Tru PROtection® coverage period, the second owner is entitled to the same coverage as the original owner. If the transfer occurs after the expiration of the Tru PROtection coverage period, the balance of this warranty shall be reduced to a 2-year period after the date of ownership change. If there is a defect during this 2-year period, Owens Corning's reimbursement to the second owner will be based only on the reasonable cost of replacement shingles reduced by the amount of use you and the original homeowner have enjoyed from the original installation date through the date of your claim based on the proration formula described below.

What Is Covered

We warrant that your Owens Corning™ shingles are free from any manufacturing defects that materially affect their performance on your roof during the Tru PROtection coverage period or that cause leaks for the balance of the applicable warranty period.

How Long Are You Covered

The length of your warranty depends on the type of shingles you purchased. See the chart at the end of this warranty for the specific warranty period that applies to your shingles.

- Tru PROtection® Coverage Period**—During the Tru PROtection coverage period of this warranty, we will pay you 100% of material and labor costs, as reasonably determined by Owens Corning, to repair, replace or recover defective shingles, subject to certain limitations. We will not pay for any underlayment, metalwork, flashings or other related work, and we will not pay for the cost to remove or dispose of your shingles. See the chart at the end of this warranty for the Tru PROtection coverage period of the shingles you have purchased.
- Prorated Period**—Once the Tru PROtection coverage period of this warranty has expired, material will be covered, but labor will not be covered, and we will take into account the number of months of use you have enjoyed from the original installation date through the date of your claim, and reduce the amount of our payment to you accordingly. That is, we will prorate the amount of our payment to you through the date of your claim. For example: If you have a 25-year warranty (300 months) and you make your claim in the last month of the 20th year of the warranty (i.e., the 240th month), we will not cover labor but will pay you 60/300ths of the reasonable material cost to repair, replace or recover your shingles. For lifetime shingle coverage, see the proration table.
- The coverage for all lifetime shingles offered by this warranty applies only to free-standing residential homes. In the instance of shingles purchased or installed upon property owned by, for example, corporations, governmental agencies, partnerships, trusts, religious organizations, schools, condominiums or cooperative housing arrangements, or installed on apartment buildings or any other type of building or premises not used by individual homeowners as their residence, the warranty period for lifetime shingles will be forty (40) years following the installation of the shingles, and the Tru PROtection coverage period will be five (5) years.

Lifetime Shingle Proration Table

Structure/Owner	Years 1-10	Years 11-40	Years 41 and Beyond
Single family detached home owned by individuals	100%	80% reduced by 2% every year thereafter until year 40	20%
Structure/Owner	Years 1-5	Years 6-40	Years 41 and Beyond
Any other types of structures or owners	100%	87.5% reduced by 2.5% every year thereafter until year 40	No coverage

- Exceptions**—At all times, Owens Corning's obligation to pay for repair or replacement of the defective shingles is subject to certain limitations. All material costs must be pre approved by Owens Corning and Owens Corning retains the right to provide materials in lieu of compensation. Additionally, Owens Corning will not pay for any accessories or other related work.

What About Wind Resistance

Your shingles contain strips of asphalt sealant that require direct warm sunlight for several days in order to seal properly. If your shingles are installed during a period of cool weather, they may not adequately seal until the season changes or the weather warms, and if your shingles never receive direct sunlight or are not exposed to adequate surface temperatures, they may never seal. Prior to sealing, your shingles are more vulnerable to blow-offs and wind damage. This is the fundamental nature of shingles and not a manufacturing defect, and we are not responsible for any blow-offs or wind damage that may occur prior to thermal sealing having occurred. After your shingles have sealed, however, they will be covered under this warranty if they experience blow-offs or wind damage in winds up to the levels listed in the chart at the end of this warranty. **HOWEVER, THE COVERAGE AGAINST SHINGLE BLOW-OFFS OR WIND DAMAGE IS IN EFFECT FOR A PERIOD OF FIFTEEN (15) YEARS FOR LIFETIME SHINGLES AND FIVE (5) YEARS FOR ALL OTHER SHINGLES, FOLLOWING THE DATE OF INSTALLATION.**

What About Algae Resistance

If the shingles that you purchased were not specifically labeled as "Algae Resistant" ("AR"), then any discoloration caused by algae is not covered by this warranty as explained in the section below, "What Is Not Covered." However, if you did purchase AR shingles, they are covered under this warranty for a period of ten (10) years (prorated after the first twelve [12] months) following the date of installation ("AR Warranty Period") against discoloration caused by algae growth ("Algae Growth"). If such discoloration occurs during the AR Warranty Period, you will be entitled to the following remedy:

- Remedy for Algae Growth**—If your AR shingles are discolored by algae growth during the first twelve (12) months of the AR Warranty Period, we will cover the cost, including labor (such cost not to exceed the initial cost of the AR shingles plus the initial cost of installation), as reasonably determined by Owens Corning, to repair, replace or recover the affected AR shingles, subject to certain limitations. We will not cover any underlayment, metalwork, flashings or other related work, and we will not cover the cost to tear off or dispose of your AR shingles. For purposes of this AR shingle warranty, the term "repair" as used above refers to cleaning or otherwise removing any algae growth from affected AR shingles. Decisions regarding whether your AR shingles should be repaired, replaced or recovered will be made solely by Owens Corning.
- Proration**—If your AR shingles have been installed longer than twelve (12) months, labor will not be covered and we will prorate the cost of your coverage to take into account the number of months of use that you have enjoyed through the date of your claim. For example: If you make your claim in the last month of the 5th year of the AR warranty (i.e., the 60th month), we will not cover labor but will cover 1/2 of the reasonable material cost of the affected AR shingles (such cost not to exceed 1/2 of the initial cost of the AR shingles).

What Is Not Covered

Our warranty does not cover damage to the shingles due to any cause not expressly covered herein. After our shingles leave our manufacturing facility, they are subjected to conditions and handling beyond our control that could affect their performance. This warranty does not cover any problems with nondefective shingles caused by conditions or handling beyond our control. Some examples of conditions not covered by this warranty include:

- Acts of God, such as hail, strong storms or winds over the maximum windspeed listed in the chart at the end of this warranty, or ice damming above the area covered by leak barriers or flashings.
- Damage to or failure of the shingles as a result of damage to or the failure of the underlying roofing structure.
- Foot traffic on your roof or damage caused by object(s) (e.g., tree branches) falling on your roof.
- Improper or faulty installation of your shingles—installation must be in accordance with our written installation instructions and comply with local building codes.
- Shading, or variations in the color of your shingles, or discoloration caused by algae, fungi, lichen or cyanobacteria (unless covered under the section "What About Algae Resistance" above).
- Inadequate ventilation or roof drainage. Some exceptions may apply. If you have questions, please contact us at 1-800-ROOFING.
- Settlement of the structure of your property or buckling or cracking of the deck over which your shingles are installed.
- Damage to the shingles caused by alterations made after completion of application, including structural changes, equipment installation, painting or the application of cleaning solutions, coatings, or other modifications.
- Improper storage, handling or other conditions beyond our control.
- Damages caused by, or the cost to repair or replace, any non-Owens Corning™ shingles.
- Improperly designed or installed gutter or downspout systems.
- Any costs that you incur which are not authorized in advance by Owens Corning.

Replacement Shingle Variations

As a result of our ongoing efforts to improve and enhance our shingle product line, we must reserve the right to discontinue or modify our shingles, including their colors. We are not liable to you if you make a warranty claim in the future and any replacement shingles you receive vary in color either because of normal weathering or changes in our product line. You should understand that if we replace any of your shingles under this warranty, we reserve the right to provide you with substitute shingles that are comparable only in quality and price to your original shingles.

Claims Process
