D'Arcy Porter is proud to announce that Elite Roofing of Nashville is now Elite Roofing – General Contractors. Our company has been providing services as a General Contractor for the past year and a half. We completed an HVAC project at the Tennessee Air National Guard this past summer and we are currently working on an electrical project with the U.S. Army Corp of Engineers. The project involves providing Shoreline Power to six different TVA lock sites along the Tennessee River.

D'Arcy Porter, President of Elite Roofing – General Contractors commented, “We changed our name to show that our company has multiple capabilities that we can perform. We are going to grow as a general contractor through projects within all of our capabilities.”

“Our company has been expanding our capabilities as a general contractor for well over a year.” explained Glenn Conway, Vice President of Elite Roofing – General Contractors. The expansion of capabilities allows us to service our customers in many capabilities including roofing, electrical, siding, painting, drywall/insulation, site prep, and HVAC.

Elite Roofing – General Contractors looks forward to working in 2010 on various projects around the Southeast. We plan to display our capabilities throughout the next year. If you have any questions about our company please feel free to contact our Director of Marketing, Chris Layton, at chrisl@eliteroofingofnashville.com
