

MonierLifetile[®]
A Boral Roofing Company

Limited Lifetime, Fully Transferable, Non-Prorated Product Warranty

This express limited Warranty covers performance of individual roof tiles only manufactured by MonierLifetile LLC, a Boral Roofing Company. MonierLifetile does not warrant accessory materials or any product manufactured by or installation labor provided by others.

MonierLifetile warrants that each MonierLifetile roof tile will be free from the specific manufacturing defects which would result in the damages specified below for the life of the building to which the tile is applied and will meet or exceed all moisture absorption and transverse break strength tests established by the International Code Council (ICC) as such tests are in existence as of the date of manufacture and which are applicable to its product. MonierLifetile specifically warrants that its roof tiles: 1) will not burn; 2) will not be damaged by vermin; 3) will not allow passage of water due to decomposition or decay; 4) will not delaminate as a result of temperature change or weathering (excluding slurry coated tiles); 5) will not warp, lift or curl; and 6) will withstand all design wind uplift loads (but damage from hurricanes, tornadoes and other acts of God are specifically excluded as set forth in exclusion (d)) when installed in accordance with the applicable local code. Certain standard weight tile products have been tested and meet certain requirements of FM 4473 and /or UL 2218 (as such tests exist at the date of manufacture and as such tests are applicable to these products) so that such products have been given specific class designations for hail impact resistance. A specific listing of such products and their respective class designations for hail impact resistance as of the date of manufacture is on the Monierlifetile website (www.boralna.com). MonierLifetile only provides the hail coverage described herein for products which at the date of their manufacture have been given a class designation on our website for hail impact resistance.

If any of your MonierLifetile roof tiles are found to exhibit the specified defects covered under this Warranty, do not meet the ICC tests described above or if your MonierLifetile roof tiles (as applicable and as described above) do not meet the testing requirements for their specific class designation for hail impact resistance ("Hail Damage"), MonierLifetile will furnish at its option a new roof tile, free of charge, to replace each defective roof tile or refund the purchase price of each defective tile. MonierLifetile reserves the right to remove sufficient undamaged tiles for testing purposes and to test any such tile before providing a replacement tile or reimbursement. In the event of "Hail Damage," testing under this limited Warranty shall consist of obtaining not less than five (5) undamaged tiles from the damaged area and submitting them for testing to the certified level at a laboratory of MonierLifetile's choice and selection. If a majority of the undamaged tiles withstand penetration by hail up to the certified level, then MonierLifetile shall have no responsibility under this limited warranty and it shall be conclusively established that hail of a size that is in excess of the certified level caused the "Hail Damage."

Specific Exclusions: This Warranty does not cover (a) damage to the tile caused during installation; (b) tile not installed in accordance with appropriate local building codes and acceptable trade practices in

that specified area; (c) damage to the tile caused by roof traffic or foreign objects falling on the roof; (d) damage to tile or structure caused by hurricanes, tornadoes or other acts of God; (e) color fading, color changes or variations of the color hue or physical deterioration of the color for any reasons including, but not limited to weathering, oxidation or air pollutants; (f) color surface fading, cracking, chipping or delamination of slurry coated tiles and (g) freeze/thaw damage to 600 weight series tiles installed in regions subject to freeze/thaw conditions.
